Professional Summary

Full Stack Developer with experience in React, Node.js, Python, and Django. Skilled in building REST APIs, authentication systems, and user interfaces. Strong knowledge of Java, JavaScript, MySQL, MongoDB, and DSA. Smart India Hackathon 2025 Finalist with hands-on experience developing scalable software solutions for real-world problems.

Skills

- Java, JavaScript, Python
- React.js, Node.js, Express.js, Django
- HTML, CSS, Tailwind, Bootstrap
- Git, GitHub, VS Code, Postman
- REST APIs, Authentication, Debugging

Internship

Front-End Developer GreyCrust
Solutions, Karnataka, India Aug 2023
– Nov 2024

- Built responsive front-end interfaces using React.js, HTML, CSS, and Tailwind.
- Developed REST APIs using Node.js and Express.
- Integrated authentication flows using JWT and sessions.

Projects

Remote Classroom for Rural Colleges (SIH 2025 Finalist)
Tech: React, Node.js, Express, MongoDB

- Built modules for live session scheduling, study material upload, and user authentication.
- Designed lightweight UI for low-bandwidth rural environments.

Artistry Learning Platform
Tech: React.js, Django, Python, MySQL

- Developed Django REST API backend with authentication.
- Built React UI with protected routes and dashboards.

Weather Forecast Application

- Tech: React.js, Python, Weather API (OpenWeather), REST API
- Developed a Python-based backend to fetch real-time weather data using a public Weather API.
- Built a responsive React.js user interface to display current weather, temperature, humidity, and forecasts.

Achievements

Smart India Hackathon 2025 Finalist — Software Category

Education

Master of Computer Applications (MCA)
Presidency University, Bengaluru, India
2024 – 2026 (Expected)

Bachelor of Computer Applications (BCA)
Mangalore University, Karnataka, India
2020 – 2023
